And they are voting age... yeah... I know that this may be "triggering" to some people - but the deal is simple... Reality is OBJECTIVE and not SUBJECTIVE. Fire is HOT - ICE is COLD. Are there "relative levels" of HOT and COLD? Yes. That doesn't, however, make ICE "hot" or FIRE "cold".

Just because I choose to believe I am a 6'5" tall, totally handsome, playboy, millionaire, philanthropist - does not alter the REALITY that I am NOT ANY OF THESE THINGS (except, perhaps, the philanthropist part).

Check out this video interview of some University of Washington students:
